Summer 2025

## Station Data Explorer

Have you explored your data? With the Data Explorer you can view your own data or another station's data if you are interested in another area. To view your Data Explorer, click on 'My Account.' Go down to 'Data Resources' and then 'Data Explorer.' Once there I encourage you to look around and see all the different ways to display your data. You can also view another station by going to view data on the [www.cocorahs.org](http://www.cocorahs.org) website and clicking on 'Station Data Explorer.' Below are just a few of the items you can see when you go exploring with your Data Explorer.

## Ohio CoCoRaHS Awards

### Diamond Dendrite Award

Special welcome to the Diamond Dendrite award level for these observers that have submitted 5,000 daily precipitation amounts. Award certificates will be sent via email.

OH-FR-59	OH-MR-3	OH-RC-3	OH-UN-4
----------	---------	---------	---------

### Golden Raindrop Award

Congratulations to our new Golden Raindrop Award members! These individuals have reported over 3000 daily precipitation reports. Award certificates will be sent via email.

OH-CB-8	OH-CY-84	OH-LR-27	OH-RC-9	OH-SM-26
---------	----------	----------	---------	----------

### Silver Snowflake Award

Congratulations to our Silver Snowflake Award members! These individuals have reported over 2000 daily precipitation reports. Award certificates will be sent via email.

OH-AS-9	OH-CY-84	OH-DR-31	OH-FR-58
OH-GR-20	OH-LC-28	OH-MY-61	OH-WR-34

### Bronze Observer Award

Congratulations to our Bronze Observer Award members! These individuals have reported over 1000 daily precipitation reports. Award certificates will be sent via email.

OH-BL-6	OH-CY-84	OH-DL-39	OH-ER-53 and 59	OH-FF-37
OH-FF-39	OH-HM-68	OH-LC-39	OH-MC-11	OH-MD-19
OH-MN-3	OH-PK-2	OH-TR-13	OH-TS-24	

### Summer 2025 Honor Roll

From June 1, 2025 to August 31, 2025, these Ohio stations reported everyday. Here are those stations who get a thumbs up for their dedication! Not listed below, but thought you reported everyday? You can check your reports. There are multiple ways to do this. You can go into your account and click on list/edit my daily precipitation reports. This will show your reports everyday. You can also go into 'view data' at the top of the page and click on 'station precipitation summary report.' Input your station and the period of interest. The missing days will be shown with dash marks. If there are additional questions e-mail [Ashley.Novak@noaa.gov](mailto:Ashley.Novak@noaa.gov)

## 10,000 Observations Award

I received some suggestions; however, I'd like to hear more! We aren't quite there yet, but it is always good to have something to look forward to. What should the name of the 10,000 Precipitation Observations be named? I'm looking for suggestions. You can submit a suggestion here: [https://docs.google.com/forms/d/e/1FAIpQLSdneGiRRnrS6wHWq--WIEpLYf5gHd-K2hc\\_sx8fPaOaIUf-zA/viewform?usp=header](https://docs.google.com/forms/d/e/1FAIpQLSdneGiRRnrS6wHWq--WIEpLYf5gHd-K2hc_sx8fPaOaIUf-zA/viewform?usp=header)

## U.S. Drought Monitor- How You Can Help!

Each Thursday the U.S. Drought Monitor is updated with data valid through Tuesday. Here is the latest drought monitor. How can you help? In your account there is a condition monitoring report form. These reports can be submitted as often as you would like (weekly, biweekly, monthly) to share information about the effects of local precipitation on the environment and society. On the form there is a helpful training slide show if you have questions. Here is a recent example from one recent CoCoRaHS location of what a condition monitoring report looks like. So the question is, what is the condition at your location? You can view condition reports for other locations in view data or in map form under maps.

Report Date ▲	Station Number	State	County	Scale Bar	Categories	Photo	Description	View
9/23/2025	OH-MM-13	OH	Miami	Moderately Dry	General Awareness Plants & Wildlife		We had rain yesterday for the first time in three weeks. We needed it but our precipitation deficit is still several inches. Trees are dropping their leaves like it is late fall, plants are wilting, and lawns are still quite dormant.
